Introduction

The COVID-19 pandemic has had devastating effects on cricket communities in Ontario and leading to significant restrictions on all sports. The resumption of sport can significantly contribute to the re-establishment of normality in the cricket community in a COVID-19 environment. The sport organizations and participants will be faced with complex decisions regarding resumption of training and competition in the current circumstances. The Cricket Ontario in consultation with Cricket Canada and local Government has developed a guideline to inform the stakeholders on resumption of Cricket. The Cricket Ontario will be regularly monitoring the government updates, Cricket Canada, and ICC updates on about COVID-19 and make necessary addition to the guideline.

Purpose of these Guidelines

The purpose of this document is to provide guidance for the safe resumption of cricket activities that includes training, playing, and travelling in domestic levels. These guidelines have been developed with the review of ICC COVID-19 Resumption of Play Guideline.

This document offers guidance on how members can return to play alongside the resumption of outdoor activities of the sport once permit to use the facilities has been issued. The Cricket Ontario Members shall use these guidelines to create policies for back to cricket activities within their leagues. These guidelines shall be reviewed and adopted along with National and Local government regulations and guidance which shall always take precedence over these guidelines.

We encourage Cricket Ontario Members to monitor changes to laws and policies and amend their own policies as required to ensure that their cricket community is applying best practices and complying with government requirements. The guidelines are relevant to domestic cricket or community cricket and applies to all participants.

The CV-19 pandemic, and the responses of governments and the public health community to it, remains unpredictable. The document is subject to all provincial emergency orders, advice and recommendations of public health authorities, municipal by-laws or other requirements, and requirements of facility owners. If there is any conflict between this recommended guidelines and other requirement of public health authorities, municipal by-laws or requirements of facility owners, these other requirements prevail over these guidelines.

This document will be periodically updated as the provincial situation continues to evolve. As revisions are made, the current version of the document will be posted on the Cricket Ontario website.

- It is recommended that all participants players, coaches, training staff, management shall sign the waiver form provided by the member leagues.
- No cricket activity- training or match play – shall start until permitted by the province and the local municipality.

Education and Awareness

Education will help promote and set expectations for player behavior ahead of resumption in play. A communique shall be sent out to the players of the health risks associated with CV-19 and the resumption of play guidelines to ensure players are aware of the risk and risk management protocol.

Resumption of Cricket

The Cricket is a non-contact team sport and subsequently the risks and exposure to CV-19 may not be the same as from full contact team sports. However, there are several risks specific to the sport of Cricket which must be considered besides the general physical exercise guidance issued by the governments

Safety First

- The resumption of cricket activities shall begin only if there is no known risk that might result in an increase in the local CV-19 transmission.
- Every effort shall be made to ensure that risks associated with the environment such as field of play, training areas, changing rooms, equipment, management of the ball have been mitigated before any starting the training or the match.
- Leagues shall be following the guided advice of their respective local governments when sporting activity is resumed, no cricket activity shall commence until approval has been obtained from the local government.

Government Guidelines

(Dated: May 30, 2020)

- Social Distancing - 2 Meters 6.5 Feet apart

- Umpires must enforce the **NO CONTACT celebrations** guidelines as defined for the teams (on & off the field) at any time during the game – as well as in between innings
- **Water:** Shall bring their own drinking water as needed. If sharing the teams provided water - please follow the same guidelines as for the players & teams.

Enforcement

Cricket Ontario urges all participants, volunteers, spectators, and management people to respect these protocols and adhere to them not only for their own safety, but for the safety of all participants.

Member Organizations and participants are expected to enforce these protocols for all cricket activities where such protocols are applicable

Enforcement should start with a warning towards any violation and in case of repetition, must lead to removal of violator from the premises such that safety of other participants can be ensured.

Isolation Plan if individual becomes ill

In case an individual (player, official, volunteers, spectators) feels unwell during the activity then following steps shall be taken to ensure the safety and wellbeing of the player as well as other participants, volunteers, and spectators:

- Unwell individual must be isolated and removed from the area immediately
- Individual as well as other participants should administer masks to prevent transmission
- Local health authority should be notified of the situation as soon as possible
- Individual must be advised to quarantine him/herself and visit local hospital for testing ASAP
- Affected area should be cordoned off and cleaned at the earliest opportunity
- All participants in attendance shall be advised to self- isolate and monitor their health
